Define Problem Statements (Customer Problem Statement Template)

Create a problem statement to understand the customer's point of view and focus on the challenges that matter when creating ComicCraft.

PS	Team Member	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	C.Iswarya	A user who wants to create a comic story.	Create an interesting comic story with characters and a clear storyline.	I may not know how to develop a complete story and characters.	I want a simple AI-assisted way to build the story.	I feel challenged when starting a comic from an empty page.
PS-2	Hasini.D	A user who wants an easy comic creation interface.	Enter a story idea or prompt and view the generated comic content.	Complex interfaces can make comic creation difficult.	A simple and user-friendly interface is needed.	I want the creation process to feel easy and understandable.
PS-3	Ramya.A	A user who wants AI assistance for comic creation.	Use Gemini Models to generate creative story content.	Creating suitable stories and dialogues manually can take time.	AI can assist in generating creative comic content from prompts.	I feel excited when my ideas can quickly become a story.
PS-4	Nandhini	A user who wants to convert a story into comic scenes.	Arrange the story into scenes, panels and dialogues.	It can be difficult to organize a story into a proper comic sequence.	A structured comic-generation process can simplify panel creation.	I feel satisfied when the story flows clearly from panel to panel.
PS-5	Nivetha.K	A user who wants a reliable and complete comic creator.	Create and review a finished comic story without major errors.	Errors in generated content or application functions can affect the experience.	Testing and documentation are needed to improve reliability.	I feel confident when the final comic works correctly and is easy to understand.
